

### **Hällesjö fishing area**

Hällesjö is a beautiful village with it's spectacular view over the lake Hällesjö.

With its old history, the unique pink church and the surrounding waters, You will feel like being a part of a spectacular, rural painting.

The best of all-You will have endless fishing opportunities,.

From the vast lake system in the village, to the small lakes and rivers with grayling and trout.

In late winter, You can do ice fishing for char and large perch. We will be happy to arrange the perfect fishing vacation to you.

### **Fish species**

Pike and perch are the most common species in the Hällesjö lake system, and its plenty of big specimens in the lake. Many guests have broken there personal pike record, regarding both number and size.

In June 2013 two testgroups of fishermen caught over 600 pike within one week fishing, and several over 100 cm..

The area has more than 70 lakes and several small rivers, so You can also fish for grayling, trout and char.

We can recommend the fishing in the lakes Lungsjö, Harsjön and Backsjön, where You have good chances to catch trout and char.

## **Hällesjö - the gateway to Jämtland**

### **Fishing areas**

The Hällesjö lake system consists of several lakes, connected by a river, which makes it possible to visit several lakes by boat. This system offers endless possibilities for pike fishing. One week is not enough to discover all the fishing that this area can offer. The area has two different licenses-one that only includes pike and perch, and one license that also includes the different trout lakes in the area.

### **Fishing season**

Fishing for pike is best during the month of June especially the weeks around mid-summer. Even autumn can produce some large pike. Perch bite best during the period of June – August. Trout fishing reaches its peak in June, particularly around mid-summer when the may flies are hatching.
