# Rossön - 180 km of shoreline

## Rossöns fishing area

provides excellent fishing opportunities in a large water system with varying characteristics.

Here you will find everything from running waters at Harahällarna to peaceful lakes such as Vallsjön and Volmvattnet.

Summertime offers a rich selection of good trout, pike and perch fishing.

In late winter, the area is popular for its excellent ice fishing for char and large perch.

We have selected some fishing grounds we believe, that you as anglers, will appreciate. We will be happy to customize a fishing vacation to you.

## Fish species

Pike and perch are the area's most common species. Rossöbygden borders the mountains and there are also fishing grounds of native trout and char.

Other species within the fishing area are whitefish, grayling, burbot, roach, ide, bream and bleak.

## Fishing area

The fishing area is situated along the river Fjällsjöälven and connects lake Bodumssjön with an archipelago like setting of islands and coves surrounding the small village Rossön with over 180 km of shoreline. Lake Bodumssjön offers varied fishing during the summer time. The more popular lakes for our fishing guests are Storflyn, Lesjön, Degervattnet and Volmvattnet. For trout and char fishing we recommend the lakes of Vallsjön, Bolltjärn, Byvattnet and Nagasjöån

## Fishing season

Fishing for pike is best during the month of June especially the weeks around midsummer. Even autumn can produce some large pike. Perch bite best during the period of July – September. Trout fishing reaches its peak in June, particularly around midsummer when the lake flies hatch..

## Accommodation

**Bodumstugan** is situated 100 m from the great pike lake Bodumsjön. It has six beds, kitchen, WC, shower, TV and an outdoor bathtub.

**Härbret** is 50m from Bodumstugan ,by the small creek of Näset. Härbret has nine beds, separated in two rooms, a kitchenette and a loft with a stove and a television. It has a separate service building with toilet and shower. For bigger groups the “Härbre” and the “Bodumstugan ” can be combined .

**Busstanäset** is only 50 m from the lake Bodumsjön. It's a small forest cabin with only two beds and a very gas-kitchenette. It's very cosy as its situated in the forest, close to the water, and many km to the closest neighbours. Here You are a part of the Swedish nature.

**The cabin "Bodumstugan" (to the right) with "Härbret" to the left. Those two cabins are situated only 100 m from the lake Bodumsjön.**

## Fishing regulations

In running waters fishing is prohibited between September-May. In general, refer to current information on your fishing license for each location. Boats with 4-stroke engines can be hired . Sport fishing gear can be bought in the local tackle shop.

## Other activities

Interesting sights include the rock paintings at Harahällarna located at the mouth of the river Nagasjöåns, the nature reserve at Vallsjön with centuries-old pines, hiking trails in the Bollbergs Nature Reserve and the Homestead museum with a Stone Age museum. There is also a nine hole golf course.
